

FTA ARRA PROJECT OF THE WEEK

Caltrain Track and Infrastructure Rehabilitation Project

Project Description:

- Caltrain received \$7.3 million in Section 5307 and 5309 ARRA funds to help support an ongoing State of Good Repair Program for track and signal rehabilitation

Project Benefits:

- ARRA funds have allowed Caltrain to free up resources for other critical projects in the agency's capital budget and projects that may have been delayed because of funding shortfalls
- The project will provide the capability for future increases in service and enhanced operational flexibility between San Francisco and San Jose, the largest employment centers in Northern California

Jobs Sustained/Created:

ARRA funding will result in the creation of approximately 220 jobs, either directly or indirectly. This will contribute to regional job growth and the regional economy.
