

CALTRAIN ELECTRIFICATION

JOBS ACROSS THE UNITED STATES: INFRASTRUCTURE

Electrification infrastructure is **creating over 22,000 jobs** nationwide.

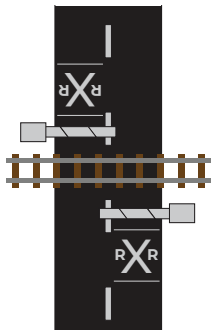

Building the electrification infrastructure takes expertise in many fields; from engineering teams designing solutions to construction crews installing infrastructure along the corridor. The project leans on a wide swath of construction workforce including carpenters, electricians, safety inspectors, laborers, and equipment operators.

OVERHEAD CONTACT SYSTEM

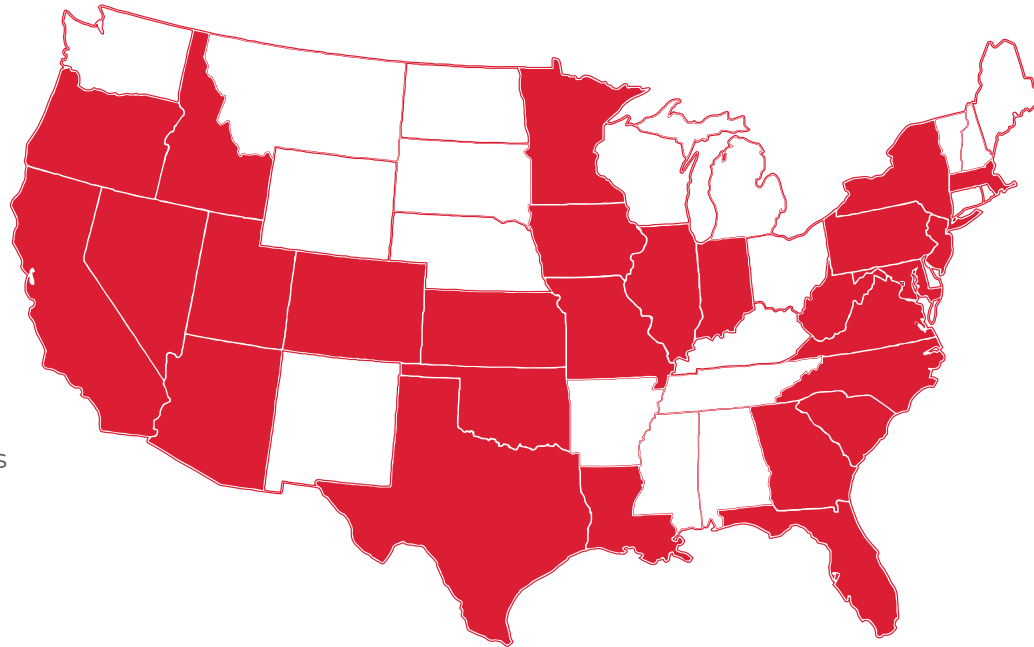

- Poles
- Wire
- Rebar
- Beams
- Cantilevers
- Safety Signage
- Bridge Barriers
- Disconnect Switches

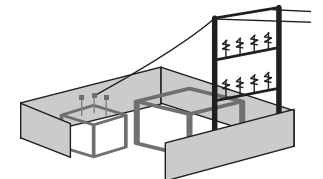

SIGNAL SYSTEM

- Ductbank
- Conduit
- Impedance
- Bonds
- Insulated Joints
- Track Circuits
- Signal House
- Power Cubicles

TRACTION POWER FACILITIES

- Transformers
- Gantry Battery
- Disconnect Switches
- Circuit Breaker
- Interrupter
- Fencing
- Control Room

TOTAL CALIFORNIA JOBS

Caltrain electrification will create **over 2,500 jobs** in California
