

CALTRAIN ELECTRIFICATION

BROADWAY LANE CLOSURE NOTICE | October 2020

UPCOMING ACTIVITIES AND LANE CLOSURE

On the evening of October 29 and October 30, Caltrain will be performing foundation installation work in Burlingame that will require a partial closure of the Broadway railroad crossing to vehicle traffic. The temporary lane closure is required due to construction equipment and crews entering and exiting the Caltrain right-of-way at Broadway.

Work will take place from 10 p.m. on October 29 to 5 a.m. on October 30 and from 10 p.m. on October 30 to 5 a.m. on October 31.

Broadway will be partially closed during construction which will require flaggers to be present for traffic control.

Construction signs and illuminated directional signs will direct the merging of westbound and eastbound vehicle traffic across the Broadway railroad crossing. Traffic cones will be placed on Broadway to mark the detour lanes. The sidewalks on the north and south side of Broadway will remain open during construction.

A lane closure map is provided on the reverse of this notice for vehicle traffic.

CONSTRUCTION ACTIVITIES

During the closure, crews will install concrete foundations for Caltrain Electrification. Work will consist of excavation, placement of rebar, concrete fill, electrical grounding and the installation of foundations.

Crews will also be working along the Caltrain corridor to install foundations outside of the closure hours noted above. Work may take place during the day and at night, with night work occurring between 10 p.m. and 5 a.m. There may also be occasional 24-hour work on weekends.

Caltrain will work with contractors to minimize night work to limit the impact to surrounding communities; however, some work must be performed at night in order to maintain regular Caltrain service. To mitigate noise and other impacts during night activities, the field team will utilize acoustical noise barrier blankets and will position

lights away from residential and business areas. Caltrain has established a dedicated project hotline and email for residents concerned about these potential impacts.

PROJECT OVERVIEW

Over the last decade, Caltrain has experienced a substantial increase in ridership and anticipates further increases in ridership demand as the Bay Area's population grows. Caltrain Electrification, scheduled to be operational by 2022, will electrify and upgrade the performance, operating efficiency, capacity, safety, and reliability of Caltrain's commuter rail service.

Caltrain electrification is a key component of the Caltrain Modernization Program and consists of replacing diesel-hauled with an electric train system for services between Fourth and King Street Station in San Francisco and the Tamien Station in San Jose. The project will include the installation of new electrical infrastructure and the purchase of electric trains.

CONTACT INFORMATION

Caltrain has established a project information line and project e-mail for Caltrain Electrification to record and respond to questions and comments from residents and stakeholders.

The project information line can be reached at **650.399.9659** or toll free at **800.660.4287**.

The project e-mail is calmod@caltrain.com

In addition, Caltrain has established a community outreach office at:

2121 S. El Camino Real
Suite A-100
San Mateo, CA 94403

Sign up for weekly construction updates can be found online at: www.calmod.org/get-involved
