

CALTRAIN ELECTRIFICATION

HILLSDALE STATION PARKING STALL CLOSURE NOTICE | January 31, 2019

UPCOMING ACTIVITIES AND CLOSURE

Beginning **January 31**, Caltrain electrification crews will permanently close parking spaces #322-343 and #412-421 in the southern portion of the Hillsdale Station parking lot in order to construct a paralleling station which will help regulate power to the new electric trains.

Parking spaces #344-357 and #390-411, also located in the southern portion of the Hillsdale Station parking lot will be temporarily fenced off in order for crews to install a staging area to support this construction. The temporary parking closures will last from **January 31 until late 2019**.

Caltrain has additional parking near Hillsdale Station that can be accessed via Pacific Blvd. A directional map is provided on the back of this flyer.

The stairway connected to the parking lot adjacent to E. Hillsdale Avenue will remain open during parking lot construction for the benefit of Caltrain customers. Pedestrians will be able to access the station via the stairs.

CONSTRUCTION ACTIVITIES

The anticipated construction activities during this time will be for the removal of existing asphalt, and concrete. Work will consist of demolition, excavation, and removal. Crews will utilize excavation equipment, pneumatic hammers, and dump trucks for removal.

Work will take place during the day and at night, with night work occurring between 8 p.m. and 6 a.m. There may be occasional 24-hour work on weekends.

WE APOLOGIZE FOR ANY INCONVENIENCE THIS MAY CAUSE.

PROJECT OVERVIEW

Caltrain Electrification, scheduled to be operational by 2022, will electrify and upgrade the performance, operating efficiency, capacity, safety and reliability of Caltrain's commuter rail service.

Caltrain Electrification is a key component of the Caltrain Modernization Program and consists of replacing diesel-hauled with an electric train system for services between Fourth and King Street Station in San Francisco and the Tamien Station in San Jose. The project will include the installation of new electrical infrastructure and the purchase of electric trains.

CONTACT INFORMATION

Caltrain has established a project information line and project e-mail for Caltrain Electrification to respond to questions and comments from residents and stakeholders.

The project information line can be reached at **650.399.9659** or toll free at **800.660.4287**.

The project e-mail is calmod@caltrain.com

In addition, Caltrain has established a community outreach office at:

2121 S. El Camino Real
Suite A-100
San Mateo, CA 94403

A project representative will be available to answer questions in person from 9:00 a.m. and 5:00 p.m. Mondays through Fridays during construction.
