

Peninsula Corridor Electrification

5th & 9th AVENUE CLOSURE NOTICE | July 2018

UPCOMING ACTIVITIES AND CLOSURE

Starting July 23rd and continuing through July 25th, Caltrain will be performing foundation installation work in San Mateo that will require temporary street closures of the 5th Avenue and 9th Avenue railroad crossings. On the night of the closures, the 4th Avenue crossing will remain open as a detour during construction.

5TH AND 9TH AVENUE CLOSURES

July 23rd to July 25th, between 8 p.m. to 6 a.m., 5th and 9th Avenue railroad crossings will be closed on a rolling basis, with only one crossing closed at a time. Illuminated and directional signs will direct vehicle traffic to use detour routes during construction. Detour maps for these closures are provided on additional pages.

PROJECT OVERVIEW

Over the last decade, Caltrain has experienced a substantial increase in ridership and anticipates further increases in ridership demand as the Bay Area's population grows. Caltrain Electrification, scheduled to be operational by 2022, will electrify and upgrade the performance, operating efficiency, capacity, safety and reliability of Caltrain's commuter rail service.

Caltrain electrification is a key component of the Caltrain Modernization Program and consists of replacing diesel-hauled with Electric Multiple Unit (EMU) train system for services between Fourth and King Street Station in San Francisco and the Tamien Station in San Jose. The project will include the installation of new electrical infrastructure and the purchase of electric vehicles.
