

CALTRAIN ELECTRIFICATION

EVELYN AVE. at PIONEER WAY to MOORPARK WAY LANE CLOSURE NOTICE | May 2020

UPCOMING ACTIVITIES AND LANE CLOSURE

Between the period of May 26 and June 2, Caltrain will be performing work along the Caltrain right-of-way in Mountain View that will require the temporary closure of the right northbound lane of Evelyn Avenue between Pioneer Way and Moorpark Way. The temporary lane closure is required due to tree pruning and removal activities along the Caltrain Electrification project area along Evelyn Avenue.

Work will take place weekdays, May 26 through June 2 between 7:30 am to 4:00 pm.

A lane closure map is provided on the reverse of this notice for vehicle and bicycle traffic.

CONSTRUCTION ACTIVITIES

In order to establish a safety zone for the overhead power system, Caltrain crews will be required to prune or remove some trees within the project area. Work will occur during the weekdays and will consist of tree pruning and tree removal. For removed trees, Caltrain will provide a replacement tree that will be maintained by Caltrain for a period of 5 years.

Crews will also be working along the Caltrain corridor to install foundations outside of the closure hours noted above. Work may take place during the day and at night, with night work occurring between 10 p.m. and 5 a.m. There may also be occasional 24-hour work on weekends.

Caltrain has established a dedicated project hotline and email for residents concerned about these potential impacts.

PROJECT OVERVIEW

Over the last decade, Caltrain has experienced a substantial increase in ridership and anticipates further increases in ridership demand as the Bay Area's population grows. Caltrain Electrification, scheduled to be operational by 2022, will electrify and upgrade the performance, operating efficiency, capacity, safety and reliability of Caltrain's commuter rail service.

Caltrain electrification is a key component of the Caltrain Modernization Program and consists of replacing diesel-hauled with an electric train system for services between Fourth and King Street Station in San Francisco and the Tamien Station in San Jose. The project will include the installation of new electrical infrastructure and the purchase of electric trains.

CONTACT INFORMATION

Caltrain has established a project information line and project e-mail for Caltrain Electrification to record and respond to questions and comments from residents and stakeholders.

The project information line can be reached at **650.399.9659** or toll free at **800.660.4287**.

The project e-mail is calmod@caltrain.com
