Reunión Comunitaria para el Proyecto de Electrificación de Caltrain

Usted está invitado a una reunión comunitaria sobre el Proyecto de Electrificación de Caltrain. Durante la reunión, personal de Caltrain proporcionará información sobre las próximas actividades de construcción que se llevarán a cabo en San Jose.

En noviembre 2017, equipos iniciaron el trabajo de cortar y podar árboles, reubicar utilidades e instalación de cimientos. A partir de finales de julio de 2019, las cuadrillas reemplazarán la casa de señales del ferrocarril cerca de las avenidas Fuller y Delmas. La reunión proveerá una oportunidad para que los residentes aprendan más sobre el proyecto, incluyendo el alcance del proyecto y el horario de las próximas actividades de construcción. Puede encontrar información adicional sobre estas próximas actividades en el lado opuesto de este anuncio. Visite www.calmod.org/get-involved para inscribirse para recibir actualizaciones semanales de construcción.

Fecha y Hora:

Lunes, 15 de julio 6-7 p.m.

Ubicación:

Gardner Community Center, 520 W Virginia St, San Jose, CA 95125

Community Meeting for Caltrain Electrification Project

Please join Caltrain staff for a community meeting about Caltrain Electrification. Staff will provide an update about upcoming construction activities in San Jose.

In November 2017, crews began working on tree pruning/removal, utility relocation, and foundation installation. Starting in late July 2019, crews will replace the railroad signal house near Fuller and Delmas Avenues. The meeting will provide an opportunity for residents to learn more about the project, including the scope and schedule of upcoming construction activities. Additional information about these upcoming activities can be found on the opposite side of this mailer. Please visit www.calmod.org/get-involved to sign-up for weekly construction updates.

Date and Time

Monday, July 15

6-7 p.m.

Location:

Gardner Community Center
520 W. Virginia St.
San Jose, CA 95125

PROJECT OVERVIEW

Over the last decade, Caltrain has experienced a substantial increase in ridership and anticipates further increases in ridership demand as the Bay Area's population grows. Caltrain Electrification, scheduled to be operational by 2022, will electrify and upgrade the performance, operating efficiency, capacity, safety and reliability of Caltrain's commuter rail service.

Caltrain Electrification is a key component of the Caltrain Modernization Program and consists of replacing diesel-hauled trains with electric trains for service between Fourth and King Street Station in San Francisco and the Tamien Station in San Jose. The project will include the installation of new electrical infrastructure and the purchase of electric vehicles.

UPCOMING CONSTRUCTION ACTIVITIES

Beginning as early as July 22, Caltrain Electrification crews will begin construction activities at Fuller Park in order to construct a new railroad signal house which will help regulate signaling power to the new electric trains.

The anticipated construction activities during this time will be for ductbank work, the removal of existing asphalt, and concrete. Work will consist of demolition, excavation, removal, and construction of a new signal house. Crews will utilize excavation equipment and dump trucks for removal. Construction work will not require on-site traffic control or road closures.

A temporary construction fence will be installed at the Caltrain right-of-way adjacent to construction in order for crews to install a staging area to support construction and to provide access for construction activities. Crews will access the construction site utilizing the existing access easement.

Work will take place during the weekdays between 7 a.m. and 5 p.m. Limited Saturday work may be required. The replacement of the signal house is expected to be completed in 1-2 months.

CONTACT INFORMATION

Caltrain has established a project information line and project e-mail for Caltrain Electrification to respond to questions and comments from residents and stakeholders.

The project information line can be reached at **650.399.9659** or toll free at **800.660.4287**.

The project e-mail is calmod@caltrain.com

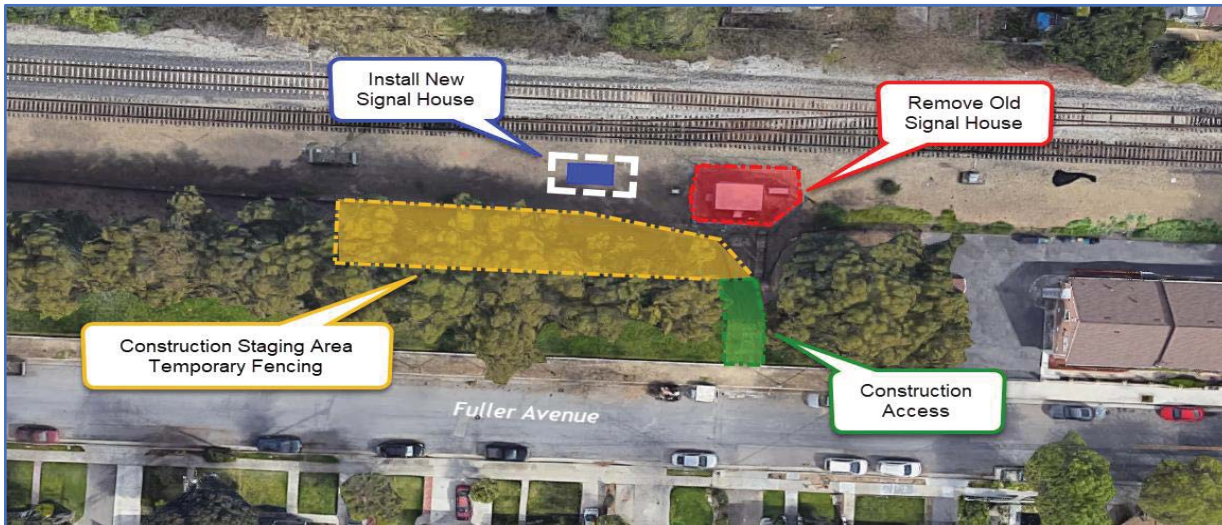

In addition, Caltrain has established a community outreach office at:

2121 S. El Camino Real
Suite A-100
San Mateo, CA 94403

A project representative will be available to answer questions in person by appointment Mondays through Fridays during construction.

Sign up for weekly construction updates at:
