

CALTRAIN ELECTRIFICATION

REDWOOD CITY STATION PARKING STALL CLOSURE NOTICE | January, 2022

UPCOMING ACTIVITIES AND CLOSURE

Beginning as soon as **January 28**, Caltrain Electrification crews will temporarily close nine (17) parking spaces in the northern portion of the Redwood City Station parking lot, just north of Broadway, in order to perform signal house work to support the Caltrain Electrification project. The temporary parking closures of **spaces 398-414** will last from approximately **January 25 until February 4, 2022**. **No Parking notices will be placed in front of the closed stalls no later than 24 hours before the closure.**

A map of the temporary closure area is provided on the back of this notice.

CONSTRUCTION ACTIVITIES

The anticipated construction activities during this time will be excavation, shoring, conduit installation, pre-cast electrical pull box installation, and backfill duct bank. The parking spaces will be used for staging equipment and materials. Crews will utilize excavation equipment, pneumatic hammers, and dump trucks for removal.

Work will take place during the day and at night, with work occurring between 7 a.m. and 3:30 p.m. Monday - Friday. The parking spaces will be closed to the public 24/7 during the construction period.

PROJECT OVERVIEW

Over the last decade, Caltrain has experienced a substantial increase in ridership and anticipates further increases in ridership demand as the Bay Area's population grows. Caltrain Electrification, scheduled to be operational by 2024, will electrify and upgrade the performance, operating efficiency, capacity, safety and reliability of Caltrain's commuter rail service.

Caltrain Electrification is a key component of the Caltrain Modernization Program and consists of replacing diesel-hauled with an electric train system for services between Fourth and King Street Station in San Francisco and the Tamien Station in San Jose. The project will include the installation of new electrical infrastructure and the purchase of electric trains.

CONTACT INFORMATION

Caltrain has established a project information line and project e-mail for Caltrain Electrification to respond to questions and comments from residents and stakeholders.

The project information line can be reached at **650.399.9659** or toll free at **800.660.4287**.

The project e-mail is calmod@caltrain.com
