

# CALTRAIN ELECTRIFICATION

## MENLO PARK GRADE CROSSING LANE CLOSURE NOTICE | April 2023

### UPCOMING ACTIVITIES AND ACCESS IMPACTS

Beginning April 17 until April 20, Caltrain will be performing grounding and bonding work for the signaling system that will require a temporary closure of one side of one lane of Ravenswood Avenue.

**Beginning April 17 until April 20 between the hours of 9 am and 3 pm there will be a temporary closure of the left eastbound lane of Ravenswood Avenue at the Caltrain grade crossing.**

Illuminated and directional signs will vehicles from the left eastbound lane into the open right eastbound lane as they approach the crossing. **Only one lane will be closed and access in both directions will be maintained.**

A lane closure map is provided at the bottom of this notice.

### CONSTRUCTION ACTIVITIES

During the temporary lane closure, crews will install grounding and bonding for the signaling system for Caltrain Electrification. Work will consist of placement of 10-foot rods at each corner of the crossing to ground electricity, testing of the rods, burial of the rods and restoring any galvanized steel and paint to pre-existing conditions.

Caltrain has established a dedicated project hotline and email for residents concerned about these potential impacts.

### PROJECT OVERVIEW

Over the last decade, Caltrain has experienced a substantial increase in ridership and anticipates further increases in ridership demand as the Bay Area's population grows. Caltrain Electrification, scheduled to be operational by 2024, will electrify and upgrade the performance, operating efficiency, capacity, safety and reliability of Caltrain's commuter rail service.

Caltrain electrification is a key component of the Caltrain Modernization Program and consists of replacing diesel-hauled with an electric train system for services between Fourth and King Street Station in San Francisco and the Tamien Station in San Jose. The project will include the installation of new electrical infrastructure and the purchase of electric trains.

### CONTACT INFORMATION

Caltrain has established a project information line and project e-mail for Caltrain Electrification to record and respond to questions and comments from residents and stakeholders.

The project information line can be reached at **650.399.9659** or toll free at **800.660.4287**

The project e-mail: [calmod@caltrain.com](mailto:calmod@caltrain.com)
