

PASS FORWARD

PROGRAM OVERVIEW

The Pass Forward Program began in 2021 to diversify ridership and increase access to the Caltrain system. Caltrain has launched a program that allows Go Pass subscribers to donate unused passes to a network of qualified community-serving organizations. Recipients of the Pass Forward Program are able to ride the Caltrain at no personal cost over the course of the calendar year.

- Our goal is to expand access to the Caltrain system for riders along the corridor.
- The program seeks to help traditionally under-represented groups, such as equity priority communities and essential workers to bypass barriers to the Caltrain system.
- These donations reduce beneficiaries' travel costs and increase their job opportunities as their range of travel increases. A donated pass will allow these groups to enjoy all the benefits of a world-class transit system.

HOW TO ENROLL:

- Meet with _____ at _____ to learn more and if you qualify.
- Take the Survey Link provided by the _____
- You'll meet up with them to get a Clipper® card!
- And tap as soon as you can to ride the line!
