

Burlingame Broadway Grade Separation Project Update

Citizens Advisory Committee

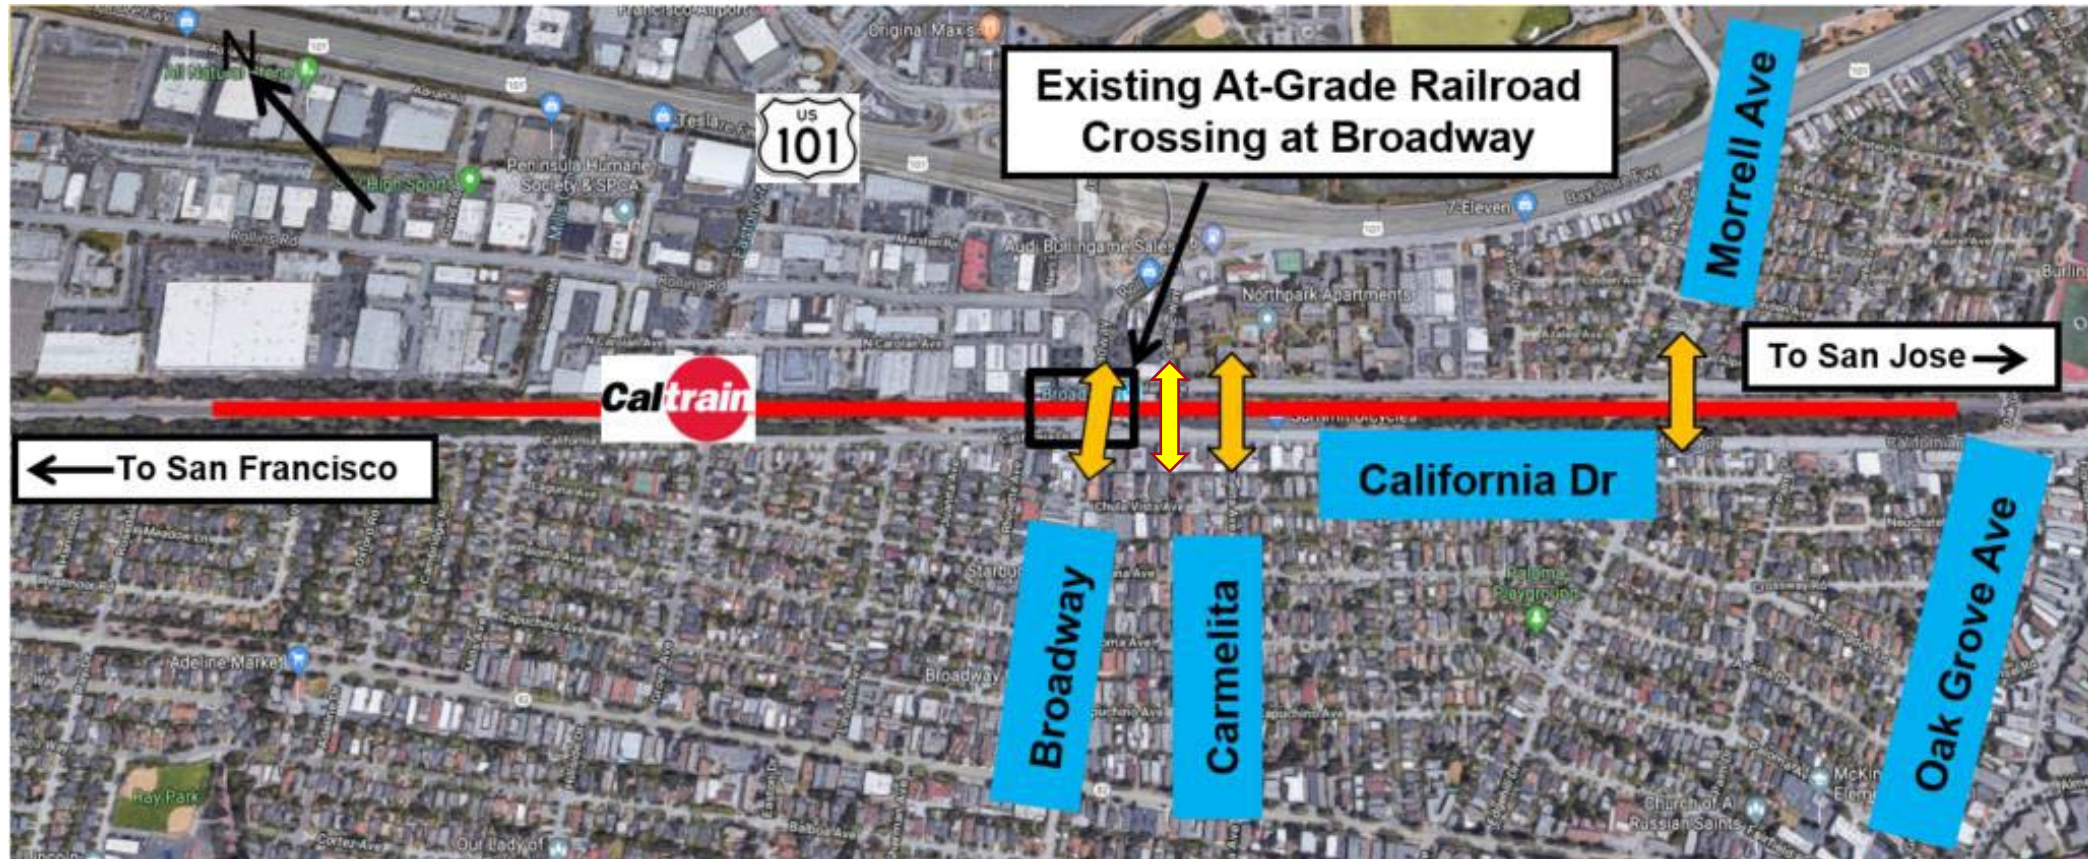

August 16, 2023
Agenda Item 10

Agenda

- Introductions
- General Project Overview
- Schedule
- Questions

Project Location

- Ped / Bike Access to be provided at Cadillac, Carmelita and Toyon-Majilla

Burlingame Broadway Grade Separation
Oblique View looking Northwest
Existing Conditions

Project Goals

Eliminate train-vehicle collisions

Enhance

- Pedestrian, bicyclist & motorist safety
- East-west connectivity

Reduce

- Delays
- Automobile congestion & emissions

Improve

- Customer experience with new station
- Efficiency of rail operations

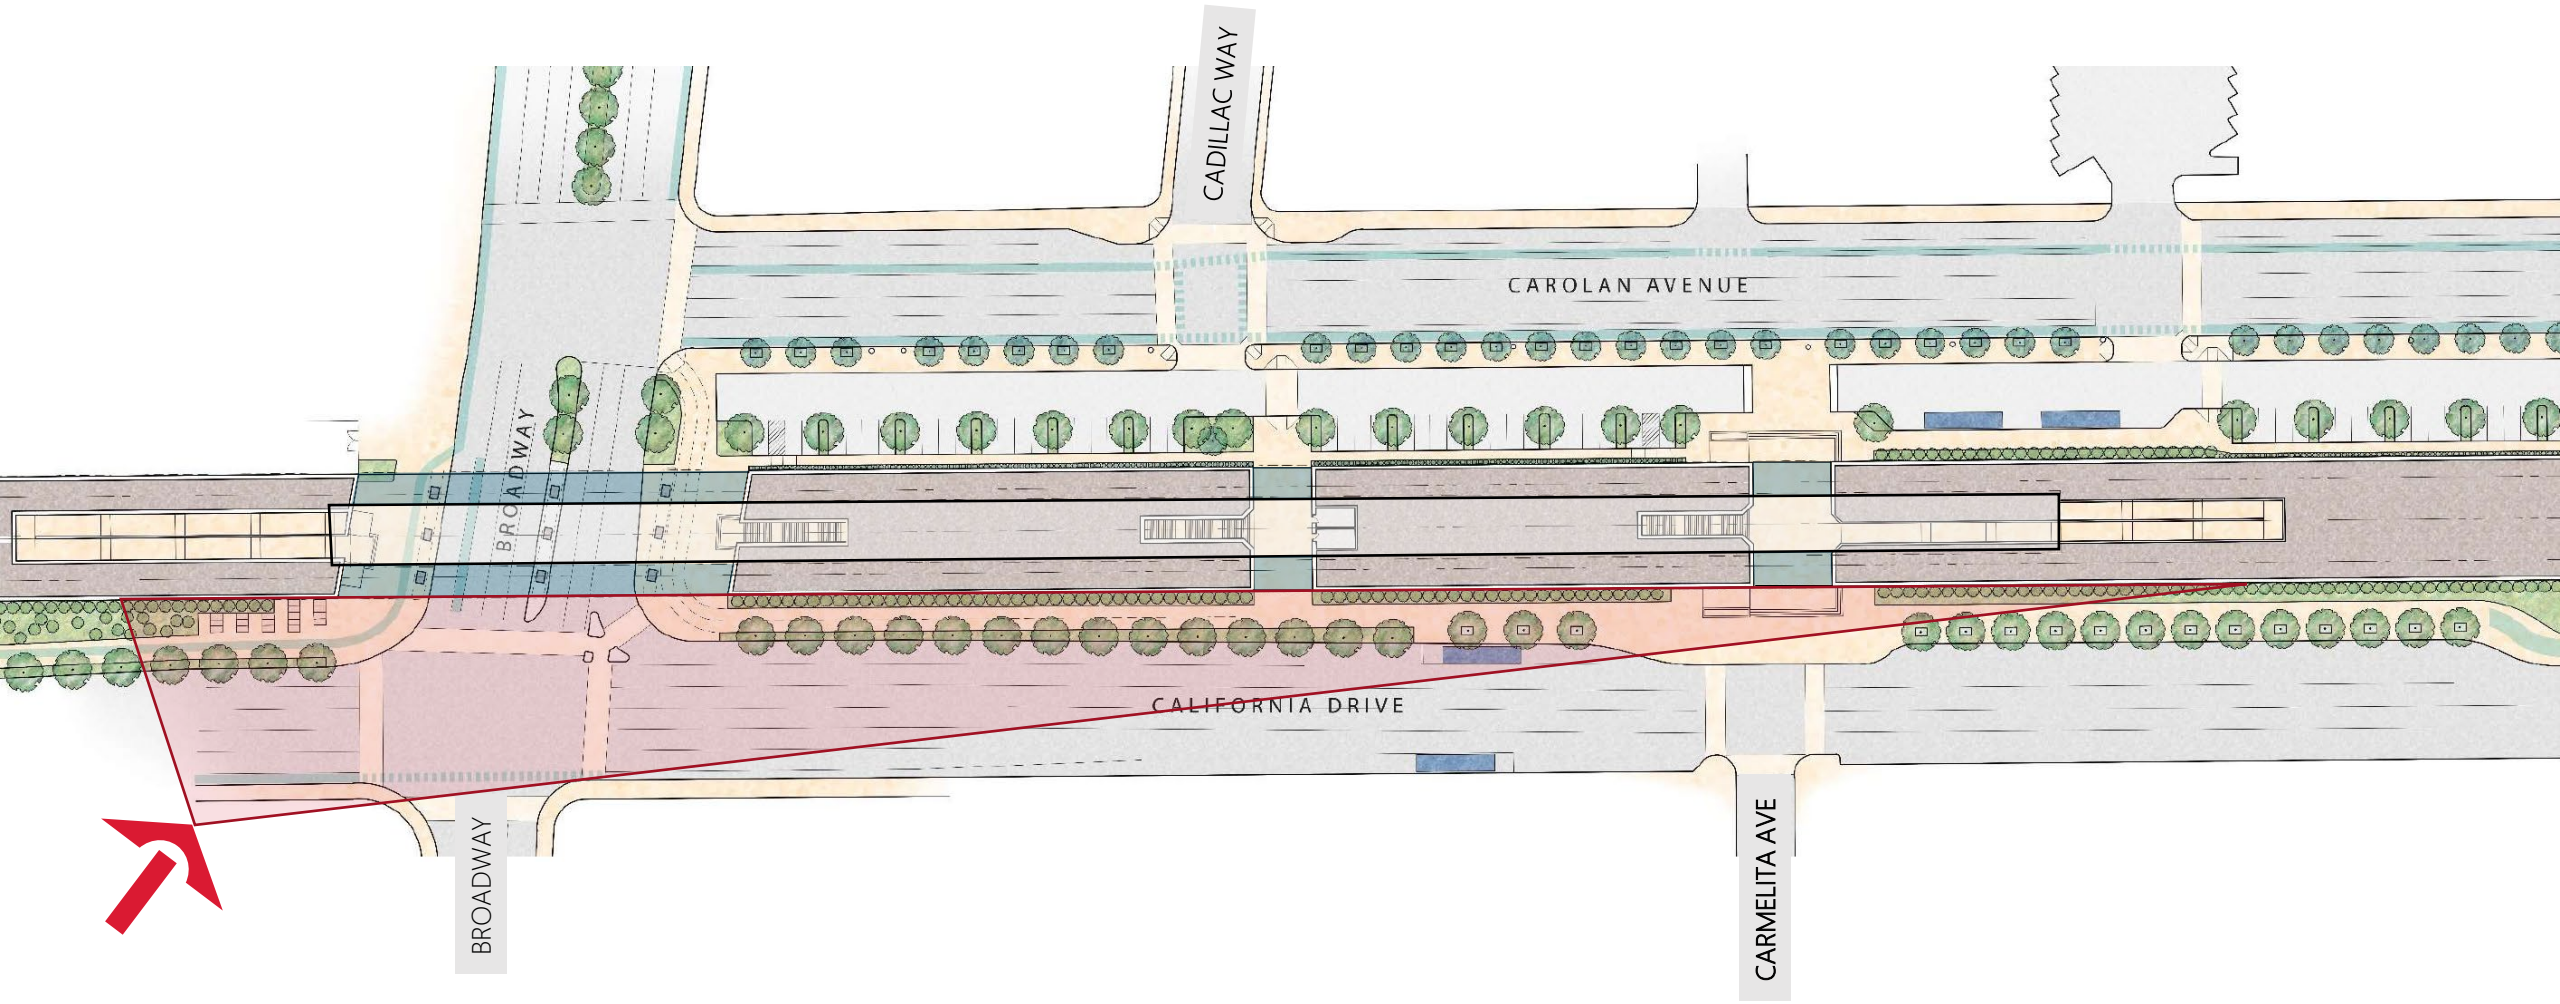

Project Scope

- Separate the road and train tracks at Broadway
- Build new station with center-boarding platform, fully compliant with the Americans with Disabilities Act (ADA), with ramp & stair access
- Create pedestrian/bicycle crossings at Broadway, Cadillac, Carmelita & Toyon/Majilla
- Provide car and bicycle parking on east side of tracks with access to/from Carolan Ave.
- Build two temporary shoofly tracks east of the existing mainline (for train operation during construction phase)

Project Progress

WORK COMPLETED

- Project Study Report (Jan. 2017)
- Preliminary Engineering & Environmental Clearance (Oct. 2020)
- Contract Awarded for Final Design Phase (Nov. 2020)
- Final Design Kick-Off (Jan. 2021)
- Value Engineering Complete (Early 2022)
- 65% Design (November 2022)
