

# ELECTRIC CALTRAIN: THE NEW ONBOARD EXPERIENCE

Caltrain Electrification will provide passengers with state-of-the-art electric train service by 2024. This historic project will transform the way people travel between San Francisco and San Jose by providing faster, quieter, greener, and more frequent service.

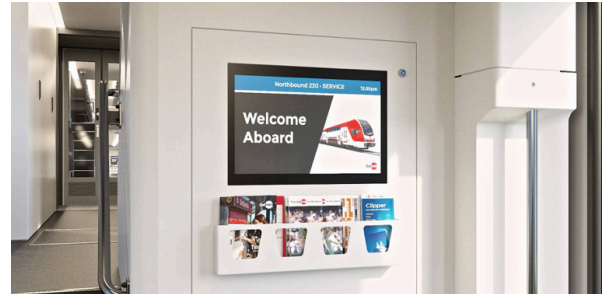

Riders will soon be able to enjoy modern vehicles with many enhanced amenities. Here are some of the new features that will provide a world-class transportation experience.

## ELECTRIC TRAIN AMENITIES

- Free Wi-Fi onboard
- Power sources at every fixed seat
- Digital displays with trip information
- More comfortable seating
- Onboard restrooms with baby-changing stations
- Two dedicated bike cars per seven-car trainset
- Spacious storage under each seat and overhead
- Cameras onboard for enhanced safety

### First Class Experience for Everyone

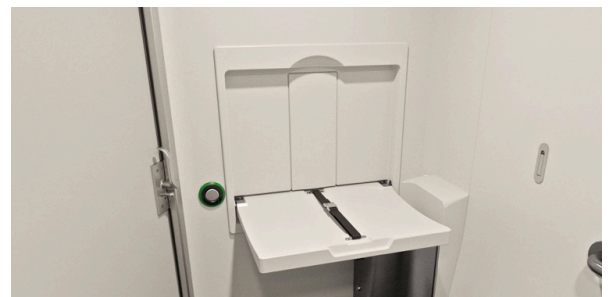

No matter where you're going, the new electric trains will provide a first-class Caltrain experience for everyone.

Digital displays with trip information

Power sources at every fixed seat

Onboard restrooms with baby-changing stations
