

Broadway Grade Separation Project

Virtual Community Meeting

Dear Neighbor,

Please join us for a virtual community meeting on the Broadway Grade Separation Project that will improve safety and traffic flow, and reduce horn noise. The purpose of the meeting is to receive feedback from the community on proposed aesthetics.

Wednesday, July 13, 2022

6:30p.m. to 7:30p.m.

Virtual Zoom Meeting

About the Project

High traffic volumes at the Broadway railroad crossing result in some of the worst traffic congestion in the region. The California Public Utilities Commission currently ranks this crossing at the top of their priority list for grade separations. The Broadway Grade Separation Project will separate the train tracks from the road; improve safety for all modes; reduce train gate down-time and horn noise; improve overall system operations; and improve traffic flow. A new elevated Broadway Station will be built as part of the project, with updated amenities that better serve the community.

A preferred design alternative for the project was approved by the Burlingame City Council in 2017. The City is working closely with Caltrain to finalize the Broadway Grade Separation Project design in order for it to be shovel ready for construction. Caltrain and the City of Burlingame invite you to learn about the progression of the project's design.

Unable to attend the virtual meeting? You can find the recording and an opportunity to give public comment on https://www.burlingame.org/business_detail_T54_R64.php.
