Dear Dev, Marina, and Carlos,

I want to express my deepest gratitude to each of you for the recently published article in *The Daily Journal* (07/01/2024) about my work securing funding for transportation projects on the Peninsula. I'm moved by your desire to so thoughtfully highlight my work in Congress that has advanced our transportation systems. Suffice it to say that none of these projects would be possible without our steadfast partnership.

I can hardly wait to see the new electrified trains roll out. The collective work of Caltrain, SamTrans and the San Mateo County Transportation Authority stand as a national model of innovation and effectiveness.

I thank you again and again for your generous remarks about my work and for your superb leadership that will shape our collective future.

Most gratefully,

Anna G. Eshoo
Member of Congress
