Bolka – what's the closest to SFO lets a path come to its airport?

Rodia – Could you explain the proposed 1998 plan in more detail

Bargar – does it require Caltrain's right of way? And if it goes through Millbrae then it would have a benefit to our connections

Lacson – Crossing Millbrae has a difficult North/South connection on bike, the study should recommend an alternative route than carrying bikes up the stairs

Chin – will there be a class one lane on the existing overpass? Is there a summary from the community study as to why they landed on the 1998 study as the top choice?

Rodia – Millbrae avenue has many turn lanes with no signals and encourages better safety measures

Bargar – San Bruno Avenue, there is only one drive-on turn and it has a sign, McDonald Rd is not scenic even though it's more convenient
