Caltrain to Move Headquarters to Millbrae

Today, Caltrain announced that its new headquarters will be located in Millbrae. Caltrain, which currently shares a headquarters with the San Mateo County Transit District (SamTrans) in San Carlos, will continue to co-locate with SamTrans at their new headquarters at Gateway at Millbrae Station.

In March, after SamTrans announced it would be vacating its San Carlos headquarters, the Caltrain organization began exploring options to lease or purchase office space near a Caltrain station. After extensive deliberation, the Caltrain Board of Directors determined that the facilities at the new Millbrae office best meet the needs of the organization. Furthermore, the ease of access to Caltrain, BART, and SamTrans will benefit employees, potential hires and visitors by providing an environmentally friendly, transit-rich location.

“Our new headquarters will provide the modern facilities and convenient location our team needs, with seamless access to the Millbrae Transit Station and the entire Caltrain corridor. After a thorough evaluation of several options, we believe this is the best choice for Caltrain,” said **Caltrain Executive Director Michelle Bouchard**.

Caltrain will be situated on the 4th floor of the building and use about 26,500 square feet of the new 180,000-square-foot SamTrans headquarters. Caltrain has agreed to a 10-year lease term that will begin at the same time SamTrans begins occupying the space, with two five-year options to extend the lease.

SamTrans acquired the building in December 2023 through a lease-to-purchase agreement at a cost of \$126 million. The building is located in a transit-oriented development on property owned by BART and is subject to a 99-year ground

lease with BART. The property is adjacent to the Millbrae Transit Center which serves Caltrain, BART, and SamTrans.

###

About Caltrain: Owned and operated by the Peninsula Corridor Joint Powers Board, Caltrain provides rail service from San Francisco to San Jose, with commute service to Gilroy. Serving the region since 1863, Caltrain is the oldest continually operating rail system west of the Mississippi and the first railroad to convert from diesel to electric power in a generation.

Caltrain Announces New Schedule

Caltrain will implement a new [weekday and weekend schedule](#), which goes into effect Monday, Jan. 27. Most changes to the schedule are minor and will provide improved on-time performance and address customer feedback.

Changes in New Schedule

- Most weekday and weekend trains will be adjusted by one to two minutes to improve on-time performance.
- Trains 113 and 141 will depart Tamien and San Jose Diridon stations four minutes earlier.
- Train 104 will start 25 minutes earlier, leaving San Francisco Station at 5:30 a.m. and arriving at Tamien by 7:08 a.m. This will impact the BART transfer at Millbrae, please consider the 6:38 a.m. train (#502).
- South County Connector evening trains will be adjusted by one minute. There will be no change to morning trains.

BART implemented a new schedule on Jan. 13. Riders that transfer between Caltrain and BART after 9 p.m. at Millbrae will be served by a BART train that will run every 15 minutes between Millbrae and SFO only. Riders will have an easy cross platform transfer at SFO to board a Yellow Line train. At Millbrae, two of the four trains each hour will be timed with Caltrain's 30-minute service schedule to provide a convenient transfer between Caltrain and BART.

The two agencies are working together to better serve the region and their riders with continued schedule coordination to support transfers between systems at Millbrae. Schedules were designed to provide transfer wait times that are convenient for riders but also flexible enough to avoid missing connections if one or both systems are experiencing minor delays.

Caltrain also announced it would be making future schedule adjustments in August to better coordinate with BART and other regional transit agencies. For information on transfers, visit the [Caltrain Transfer page](#).
